Responsible partners

# Quality, Safety & Compliance for Global Markets

STARIZO is a specialized manufacturer of high-quality clean label rice-based ingredients designed to serve the evolving needs of the global cosmetics, food, pharmaceutical, and nutraceutical industries. Our focus is on delivering consistent quality, supply reliability, and application-driven solutions using rice as a clean and sustainable raw material.

Our state-of-the-art manufacturing facility is built with advanced processing technology and a rice processing capacity of 550 TPD, enabling us to ensure dependable supply and scalability for global customers.

## Why Rice-Derived Ingredients?

**Plant-based | Hypoallergenic | Clean beauty aligned**  
**Biodegradable | Talc alternative | Microbiome-friendly**

# Starizo Rice Biopolymer

## Ultra-Fine Performance (2–8µm)

As highlighted in the technical overview:

- Smallest granules among cereal starches
- High surface area
- Neutral sensory profile
- Hypoallergenic purity
